Project Value: \$ 96,000.00

Set Aside: SBA 8a Set Aside

Scope of Services:

- Road Construction
- Civil Construction
- Disaster Response
- Utility Construction

Project Abstract

Team Henry was tasked with this Emergency Response Task Order on the NPS Indefinite Delivery/ Indefinite Quantity (IDIQ) Services Contract. The scope required the replacement of the existing sewer line and connecting it the Washington, DC sewer system at the Rock Creek Park newly renovated Lodge House.

On this challenging Design Build project Team Henry had to develop a technical approach, research permitting requirements and develop a project budget in only four days over Memorial Day weekend.

Upon Task Order Award Team Henry had to develop engineered drawings and obtain permits for Sewer Line Connection and complete the replacement of the existing sewer line with a new line and a new main line tap in less than four days. Additional site tasks included road closure, excavation and repair, line inspection and testing, and site restoration.
