Project Abstract

Team Henry was awarded this Indefinite Delivery/ Indefinite Quantity (IDIQ) Services Contract that consists of the general maintenance and rehabilitation of paved areas including numerous roads, parking lots, campgrounds, picnic grounds, sidewalk/trails and associated appurtenances in the South East United States covering 9 states.

In addition to construction activities Team Henry and it's Team Members are responsible for disaster and/or emergency response activities at our country's landmarks and national treasures across the South East Region.

Contract may include road construction operations that involve analysis of existing conditions, development of typical paving sections and paving mixes, any required permits, new asphalt, concrete, or gravel road or trail construction, crack sealing, chip seal, pavement milling, full and partial depth reconstruction of road base, culvert replacement, headwall and end wall installation or reconstruction which could involve historic stone masonry, curb replacement or resetting of curb - stone, concrete or asphalt, constructing accessible curb ramps, construction of sidewalk both asphalt and concrete, construction of paved waterways both asphalt and stone
