

## Project Profile

**Project:** US 70 Goldsboro By-pass NCDOT

**Location:** Goldsboro, NC

**Client:** Barnhill Contracting Company

**Contact:** David Weir  
Project Manager

**Phone:** 252-824-0121

**Proj. Value:** \$210,000.00

### Scope of Services:

- Level II Erosion Control
- Coir Fiber Basin Baffles
- Special Sediment Fence
- NCDOT Silt Fence
- Tree Protection Fencing

## Project Abstract

This project is a 4 mile, six lane section of limited access highway and numerous bridge structures which traverses a complex wetland system. Accordingly environmental concerns were a high priority. Team Henry had to mobilize quickly and respond to requests for additional sediment and erosion controls within 24 hours of request..

Team Henry Provided:

- Certified NCDOT Level II Erosion Control/ Stormwater Site Manager
- 12,000 Linear Feet of Coir Fiber Sediment Basin Baffles
- 35,000 Linear Feet of Tree Protection Fencing
- 70,000 Linear Feet NCDOT Silt Fence
- 3,000 Linear Feet of Special NCDOT Sediment Fence, consisting of hardware cloth on painted 5' metal posts, with 60 pounds # 57 stone per foot.
- Materials Transportation
