**Proj. Value:** \$ 50,000.00

**Set Aside:** NA

**Scope of Services:**

- Interior Renovation
- Logistics
- Transportation & Disposal

## Project Abstract

Team Henry was tasked by the TSA to provide the required labor and material as required to reconfigure the optimization of the passenger security checkpoint at PHF, to include furnishing and installing an additional 2' to the existing 6' glass checkpoint dividing wall. Furnish and install a new (approx 8 x 25) glass checkpoint dividing wall.

Additionally, Team Henry provided the required labor and material as required to furnish and install a new glass privacy screening room and supervisors office with single door into each room using obscure pattern glass (approx 9x9 dimension).
