Email:

Proj. Value: \$1,074,676.00

Set Aside: Unrestricted

Scope of Services:

- Demolition
- Logistics
- Erosion Control
- Transportation

Project Abstract

On this challenging project, Team Henry was selected to remove 389 USGS discontinued streamgages and Cableways in 28 States including;

KY	VA	NC
SC	GA	FL
TN	MS	LA
TX	NM	OK
MO	CO	NV
ID	MT	WY
SD	ND	KS
NE	IA	

The scope of this project included dismantling and demolition of concrete and metal structures used to measure water level and turbidity of the streams and rivers on which they were located.

The vast majority of these sites were located in remote rural areas with limited and/or no access for trucks and equipment.

Associated project activities included transportation and disposal of construction debris, erosion control, fencing and site restoration.
